"Where the Adventure Begins ..."

Greetings all I hope you are All Well.
Well, CoVid is on the rise ... again.

Cases are spiking all around the nation and the world.
It's a risk going out pretty much anywhere ...
Well, except when Swinging the Detector ...
Just keep that Social Distancing

This is the next installment of our **SCTSC** NewsLetter.
I've had only a few members report Finds to me
since the October NewsLetter ...
though we would all enjoy seeing them ... !

My plan is to issue another NewsLetter in December ...
Though **I would greatly welcome & Appreciate photos
and descriptions be forwarded to me** for inclusion

C'Mon ! Help us out !

The Q brother's

The President's Corner :

Bill say's Hello to everyone, and he is grateful for the well wishes. His incident in Maine with the chain saw got the best of his finger, though it seems to be healing okay.

Unfortunately Bill knows that CoVid prevents us from meeting in person. In spite of that, we have had new members joining regularly via the website.

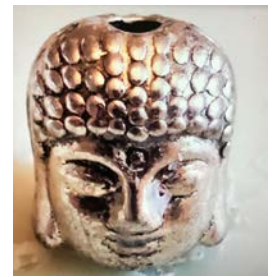

Bill also mentioned the possibility of having a Raffle ... perhaps by New Years. More on that in the December NewsLetter.

A few Other Beach finds ... from Luke Berube ...

From the
Sand !

What a Great
Buckle !

"Wet sand both class rings and a 14k wedding band were 6 - 8 feet from each other. The 2 small 10k rings were essentially the same hole, definitely from the same individual (pinky ring finger).

So far ... 16 total Gold rings, 1 Platinum and countless (20-25) Silver rings off this one beach this year.

First class ring belongs to a J. H. ... I've been in touch.
Second class ring Sutton High ... belongs to a Cheryl ...
haven't found her yet.

All found on the Cape with a **Minelab ctx3030**

Always dig those Iffy targets, especially around rocky ironous areas ...
both class rings and the 14k band sounded like total crap."

A few of Joe Bakers finds ...

"Nice !"

1853

1847

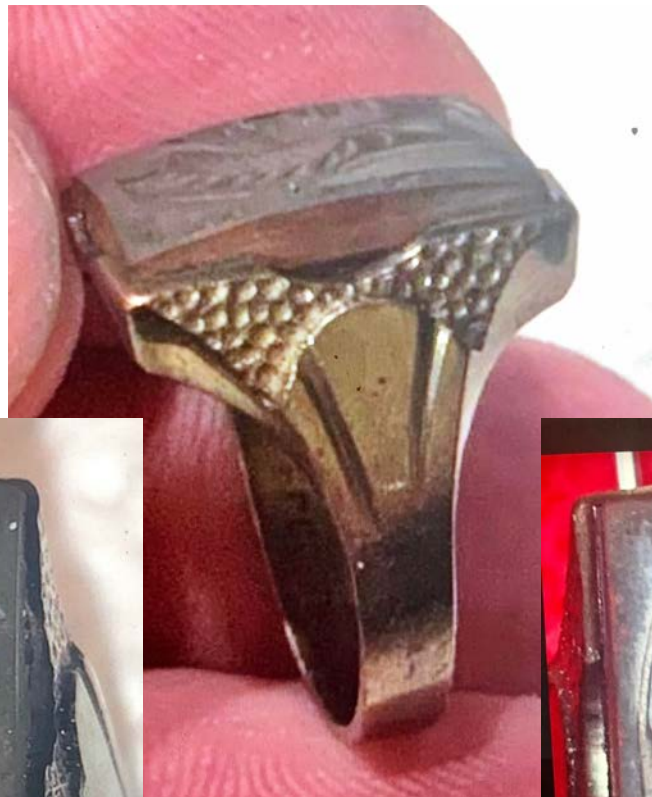

"Nathan and I hit a local farm and he did quite well with the Equinox. A Large cent and an IHP and a nice little Brass Bell. I got a couple of strap buckles and some mangled spoon pieces."

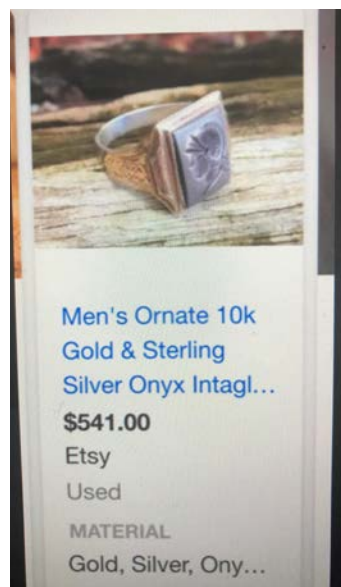

"On our beach hunt we got a bunch of clad & 3 sinkers but no silver or jewelry."

Joe Baker ... another excellent find ... !

"I found this really neat ring at a local beach back in August. Toned it in about 4 feet of water with the **MineLab CTX**. It has what appears to be the bust of a Roman soldier set in Onyx."

Way to Go Joe !
